Technical Data

Model	LF36
Medium	Air
Basic function	Pressure switch operation: provide water level signals to appliance control, levelvalue can beset on customer request Level 1 (11-12/14) Level 2 (21-22/24) Overflow (21-26)
Electrical data	3mA/24VDC
Humidity	10-95%
Ambition Temperature	5-85C
Terminal	6.35 x 0.8
Connection	5.5mm OD
Mounting position	Vertical
